

STATEMENT OF PURPOSE**RS24861**

Section 33-5109, Idaho Code, authorizes students to enroll in dual credit courses, regardless of whether or not they are participating in an advanced opportunities program funded by the state. Originally enacted in 1997, and last amended in 1998, this section did not consider students taking credits other than academic credits and uses the term "academic" credit in discussing the credits allowed. The proposed legislation would make a technical amendment to specify that the credits could be academic or career technical as applicable to the course being completed.

FISCAL NOTE

There would be no fiscal impact from the proposed legislation. The proposed amendment clarifies a current practice resulting in no additional fiscal impact.
